WORK EXPERIENCE

Web Developer

Alobase

📅 Oct 2020 - Nov 2021

- Created accessible, responsive, and functional user interfaces to allow visitors on any device to have the same perfect user experience. This process increased number of 5 star UX/UI reviews.
- Built mock designs and wireframes for landing pages for 5 new product concepts.
- Developed user interfaces with modern JavaScript frameworks, HTML5, and CSS3, which improved user satisfaction.
- Built API following RESTful standards to allow users to submit information by storing data in MongoDB.
- Developed applications using React while managing the State through Redux saving hours of users' time.

Web Developer

Hectagon Finance

📅 Nov 2021 - May 2022

- Created the user experience that fetched, parsed, and formatted analytic data, and relayed it into React components.
- Responsible for scheduling of 10+ employees at all times.
- Created documentation to teach new team members company standards and best practices in React.js and Node.js. This shortened learning time by an average of 16 days.
- Tested software for bugs and operating speed, fixing bugs and documenting processes to increase efficiency.

CAREER OBJECTIVE

Throughout my career as a software developer I've focused on developing scalable and well documented code. I enjoy working collaboratively but can also run with projects on my own.

EDUCATION

Diploma

Computer Programming

Humber College

📅 Oct 2018 - May 2020

📍 Toronto, ON, Canada

SKILLS

- JavaScript (ES6, React, Redux, Node.js)
